

Internship Program

FACTSHEET

DON'T DREAM ABOUT IT, LIVE IT!

ABOUT

The ACS Foundation's main objective is to **promote IT as a dynamic career to high school and university students**. We also want to create an awareness that the ACSF offers IT scholarships and 'internships' for university students who want a pathway to graduate roles.

INTERNSHIP DETAILS

Internship Placements:

- Range from 3 months to 12 months in duration. They vary from part time to full time.
- Are paid fortnightly and payments vary by company
- Are packaged through an education scholarship model and are tax free.

APPLICATION REQUIREMENTS

The selection criterion is determined by the sponsoring company.

However, generally applicants must:

- Hold an Australian/New Zealand permanent residence or a visa with no work and study restrictions
- Possess good communication skills
- Have graduated or currently studying at an Australian university
- Be prepared to enroll in an ICT related university program (i.e. short courses) if offered an internship.

FUTURE PATHWAYS

Interns often dovetail into graduate programs. Although, this is not guaranteed. It is the sponsoring company's decision whether to offer the intern a grad role or a permanent role.

HOW TO APPLY

Candidates should visit the ACS Foundation website:

www.acsfoundation.com.au

1. Browse through current scholarships available
2. Upload current CV, transcripts, cover letter and application form.
